

Temp Air is an *elite* Pearl Contractor

About the Pearl Contractor Network

Pearl Certification helps homeowners capture the value of their HVAC investment for resale and appraisal with the Pearl Certification Report and completed Appraisal Addendum. While manufacturers of HVAC equipment may certify their own products, Pearl thoroughly vets all of the contractors in its elite Network as part of the 3rd-party certification. We're proud to be the best of the best.

As a qualified Pearl HVAC Contractor, Temp Air has met stringent requirements:

- **Customer service**
- **Workmanship quality**
- **Installation expertise**
- **Technical training**

PEARL PROUDLY WORKS IN PARTNERSHIP WITH:

A comprehensive approach to *HVAC*

- **Improve Your Family's Comfort**
- **Enhance the Value of Your Home**
- **Use Energy Responsibly**
- **Make Wise Investments**
- **Protect the Health of Everyone Under Your Roof**

Temp Air provides you with options to improve your HVAC system while maximizing your return investment. Only contractors in the elite Pearl Network can offer Pearl Certification on all of their installations. Pearl assigns points to home features based on how much they contribute to your home's energy efficiency performance. All Pearl Certified improvements contribute to your comfort, health and energy efficiency within these categories:

Building Shell

Home Management

Heating & Cooling

Renewable Energy & Energy Storage

Baseload

Temp Air knows how to properly document your home's energy efficient, high-performing HVAC equipment so they raise your home's market value.

Temp Air + Pearl Certification = Trust and Confidence!

Home Value

With Temp Air and Pearl Certification, you can have confidence in your home and in your investment. Through Temp Air, Pearl gives you the tools to maximize your home's appraisal or price when the time comes to refinance or sell with the Pearl Certification Report and completed Appraisal Addendum.

Long-term Peace-of-Mind

Temp Air is a financially stable, long-established contractor with a proven track record of excellence. This ensures that anytime you need service or support on your HVAC equipment, Temp Air will be here to assist you!

After installation, Temp Air and Pearl have you covered

Along with your Pearl Certification Report, you will gain access to Pearl's Green Door Web App to help you manage and further improve your high performing home. With Green Door, you have access to top-notch resources and guidance throughout your journey of homeownership.

The Pearl Network Contractor Difference - Better in Every Way that Matters to Homeowners:

- **Superior Customer Service** and value proven through online ratings, Better Business Bureau history, and strategic, well-developed approach to serving customers and solving problems
- **Business Best Practices** indicated by proper licenses, internal processes, permits and relationships with subcontractors and industry organizations
- **Commitment to Quality** expressed through continuous education, product training, and safety training that is provided for the workforce
- **Commitment to Community** lived out through a sense of responsibility and mission to serve others, whether locally or globally
- **Technical and Thought Leadership** demonstrated through engagement in industry associations, commitment to trade-specific qualifications and knowledge of emerging trends

Through Pearl Certification, Temp Air helps safeguard your financial investment in HVAC improvements by providing appraisal documentation about the improvements you make in your home.
